# Professional advancement . . .

Teaching is done in the classroom, but planning is done under a reading lamp.

In your easy chair you study the suggestions of co-workers in your profession and consider thoughtfully the work you are doing.

There is still pioneering to be done in commercial education, but you need not do it all nor do it all alone.

If you would plan your teaching effectively, profiting by the experiences of your colleagues,  
*you need*

THE BUSINESS EDUCATION WORLD.

. . . is built in the  
quiet hours
